OIL NEWS

(From Local and South Oklahoma Fields)

Chickasaw Will Touch 4,000 Feet

The statement was made today that the Chickasaw Refining Company, P. H. Morrison farm, in section 26, 48-2W, which well struck a prolific water sand last week, will drill deeper. This will be interesting news to the oil fraternity. It is said that the well, which now stands at 2,215 feet, will be drilled to a depth of 4,000 feet.

Most Prolific Water Sand

One of the most remarkable water sands that have ever been found anywhere, is known to exist in the country near the little town of Oswalt, in Love county. J. M. Noble, who is drilling an oil well in section 32, 64-1W, at the shallow depth of 30 feet, entered a very prolific water sand, which had a thickness of 110 feet. This well has been pumped in a 4-inch stream, and the water has not been lowered one foot in the well. The soil there is of a deep sandy nature and such a well as this could be used to irrigate quite a nice farm. It would supply fresh vegetables and fruits the year round, and would make fine corn and cotton every year. Landowners in that section certainly have a right to be elated over this discovery as it ought to result in making lands there worth five times as much as they have been selling for. The water is clear and pure and would be ideal for irrigation purposes.

Westheimer Goes to Ranger

Max Westheimer arrived here yesterday from Muskogee, where he has been on a business trip, and left here this morning with C. E. Sykes and H. W. Coe for Ranger, Texas, where they will visit with P. C. Dings and others of Ardmore own a well which was brought in a few days ago on the Bracken tract. The production of the well is not known but at last report it was flowing.

Drilling Notes

Widawake Company in section 12, 30-7E, is running the 6 5/8 inch casing. The well is at a total depth of 2,515 feet.

Ada-Durand Company, in section 24, 48-6E, has a fishing job on hands. The depth of the well is 1,905 feet.

Smith & Lee, in section 3, 47-7E, is fishing up. Drilling will be started within a short time.

Katz et al, in section 19, 48-8E, has aqueducted in.

Homa-Otto Oil Company in section 22, 24-8E, is underreaming at a depth of 1,210 feet.

Hayling et al, in section 38, 50-8E, is drilling at 400 feet.

Teague Company, in section 6, 50-8E, is fishing up.

Glady-Denn Oil Company, in section 1, 60-8E, has aqueducted. This company in section 40, 60-8E, is underreaming the 12 1/2 inch casing to a depth of 750 feet.

McMahan, in section 17, 70-9E, has aqueducted. The well is now at a depth of 170 feet and is shut down for gas line.

D. M. Smith, in section 6, 70-12E, is shut down for 8 inch casing.

S. Haught, in section 34, 80-8E, is shut down at a total depth of 3,492 feet. This tool is to be sold.

Bison Refining Company in section 13, 80-8E, has the rig on the ground.

Refiners & Producers Company, in section 41, 80-8E, is shut down for fuel.

Gypsy Diamond Company, in section 2, 80-8E, is underreaming the 6 5/8 inch casing at 2,090 feet.

Glady-Bell Oil Company No. 2, in section 18, 80-19E, is pulling the casing to plug.

Depositors Oil & Gas Company in section 29, 80-19E, is a rig.

Maid Oil & Gas Company, in section 13, 70-5E, has a joint of casing lost in the hole and is trying to side track it. No more hole has been made.

Rebold et al, in section 19, 90-8E, is a rig.

Glady-Bell Oil Company, section 12, 90-19E, is a rig.

On the Harjo Farm

It is reported that the Kewanee Oil & Gas Company has made a location for well No. 1, on the Betty Harjo farm, in section 3, 60-8E. The location is in the northeast corner of the northwest

quarter of the northeast quarter of the section.

Another New Location

Glady-Bell Oil Company, has made a new location for well No. 1, in the northwest corner of the northeast quarter of section 17, 5-9. This is on the Blanche Smittle farm.

Near 1,000 Foot Level

Wilkinson et al, No. 1, in section 23, 24-15E, is drilling at a depth of 980 feet.

Will Go to 2,500 Feet

Costanza Coal & Mining Company No. 1, in the northeast corner of the southeast quarter of section 27, 50-17E, is drilling at a depth of 2,230 feet. The drilling contract on this well calls for a depth of 2,500 feet.

Reopens Oil Well

Morris et al No. 1, in the southeast corner of the southwest quarter of section 17, 50-8E, on the Mattie Harjo farm, is drilling at a depth of 1,292 feet. This is an old well which has been shut down at 1,160 feet. A show of gas was found at 1,200 feet.

Oil Personalities

The J. M. Noble well, in section 32, 64-1W, in Love county is setting the 10-inch pipe.

I. W. Williams, who has charge of the Coline well, in the Poolville country, is an Ardmore visitor today.

Mr. and Mrs. Arthur Kraft are here from Lawton, visiting with Mr. and Mrs. P. M. Brigrance, at 25 Sixth avenue northwest. Mr. Kraft is operating in the Lawton fields and is making good progress with the development of his leases.

Mid-Continent Production

Estimated production of the fields of the Mid-Continent at the close of the past week was as follows: North Louisiana, 52,000 barrels; North Texas, 25,490 barrels; Corsicana field and Thrall, 800 barrels; Kansas, 59,000 barrels; Oklahoma, outside of Cushing, Sharnock and Healdton, 162,000 barrels; Cushing and Sharnock, 35,500 barrels; Healdton 37,000 barrels; total 418,290 barrels.

The estimated daily production of heavy-gravity oil in the Gulf Coast field was 53,000 barrels; Corsicana heavy, 500 barrels.

May Control the Gas

Oklahoma City, Dec. 1.—The Corporation commission probably will assert control to the extent of cutting off its use except to actual domestic consumption, it was indicated here today. This is in prospect if the coal shortage continues. While the use of oil stoves and oil-burning engines will be restricted in some of the industries, there will be a large number of cotton gins that will close down. Word to this effect continually comes to the office of J. A. Whitcomb, president of the State Board of Agriculture.

OIL LANDS, LEASES AND ROYALTIES

For lease:
 20 acres, section 29-48-2W, \$800.00 per acre.
 20 acres, section 24-48-2W, \$850.00 per acre.
 40 acres, section 11-50-1W, \$450.00 per acre.
 10 acres, section 2-48-2W, \$150.00 per acre.

We will consider offers on:
 60 acres, section 4-48-2W.
 270 acres, section 26-48-2W.
 70 acres, section 8, 40-1W.

WAR-TIME RESTRICTION ON FUEL IS EXPECTED TO COME IMMEDIATELY

Washington, Dec. 1.—Fuel Administrator Garfield, acting in conjunction with the railroad administration, announced that only the industries included in the first five classes of the priority list established during the war, would be furnished coal and that public utilities would be asked to discontinue furnishing power, heat and light to non-essential industries.

The industries to which coal will be furnished will be coastwise and inland shipping, army and navy, any other government, department, state and county, department and institutions, public utilities, including newspapers and retail dealers supply household consumers.

War time restrictions on the consumption of coal were ordered into effect today for the period of the present strike emergency.

THE SOUTH DAKOTA DEMOCRATS ENDORSE WILSON FOR 3RD TERM

Pierre, S. D., Dec. 1.—Democratic leaders announced that their state convention tomorrow will endorse President Wilson for a third term if he is willing to be a candidate. Some of the delegates pointed out this will leave the delegates free to make a further endorsement if necessary at the March convention.

MOTOR CAR CARRIES TEN PASSENGERS DAILY OVER DESERT

Motor cars are not only assisting in the solution of transportation difficulties where there are no railroads and where roads are short of hauling equipment, but are also making themselves an important factor in solving the labor problems of large employers.

The great polish field at Sealaska Lake, in the alkali regions of southeastern California, are difficult at times because of their remoteness and the lack of adequate railway facilities. Consequently the labor problem always has been more or less troublesome to the polish industry. The motor car was once suggested as a means of transporting laborers from Los Angeles to Sealaska Lake, but the thought of the terrible roads through the desert region promptly dissuaded anyone inclined to ward the experiment.

The idea persisted, however, and ultimately proved itself not only feasible but profitable. Today, W. H. Hagans makes it his business. He drives the 100 miles from Los Angeles to Sealaska Lake, through the desert roads between Lancaster, Boronolay and Troma, every day. With him on every trip go ten passengers, and trip is made in seven hours and a half, despite the rough roads. An idea of these roads may be had from Mr. Hagans' statement that "2500 miles is the limit for the best of road tires, and this on a car known to give the maximum in this mileage."

"My experiment is more than successful," said Hagans. "I have already made 11,000 miles over this route with one car and am just starting. When I chose a Dodge Brothers motor car for this work I knew that I was going to impose on it a task far beyond its intended capabilities. What I wanted was reliable performance with low initial cost. To have bought motor equipment that is ordinarily thought of first for this heavy hauling, would have cost me from three to seven thousand dollars. My Dodge Brothers car, even with its special body, cost only \$1700. Today the motor is running perfectly and my repair costs for these first five months have been practically nothing."

"I thoroughly believe in a more general use of the motor car for business purposes. Many people seem to have the idea that cars are built only to run for pleasure. Let them pay us a visit out in the desert, on the roads to the polish fields, and they will get a different idea of what the word 'utility' means."

A London judge says that late hours effect a subtle change in people's characters. Crime occurs most frequently between two and six a. m.

ARDMORE UNITS OF THE NATIONAL GUARD ARE READY, WAITING ORDERS

Captain Cassidy of the Ardmore Machine Gun Company, and Captain McClain, of Company E, Oklahoma National Guard, received a wire this morning from Adjutant General Barrett, notifying them to have their men held in readiness for strike duty in the coal field districts of the state.

Both officers, immediately notified their men and all is in readiness to respond to the call whenever issued.

Captain Cassidy, of the Machine Gun Company, stated this morning that he was ready to entrain at a moment's notice.

Captain McClain of Company E has notified all his men and they are ready to respond when called.

The destination of the two Ardmore units in case they should be called was not intimated.

WOOD FOR PRESIDENT, IS CHOICE OF SOUTH DAKOTA REPUBLICANS

Pierre, S. D., Dec. 1.—Governor Norbeck and W. H. King, chairman of the state central committee, leaders of the republican party in South Dakota, announced at noon today they endorsed Major General Leonard Wood as republican candidate for president and declared Wood would be endorsed by the state convention tomorrow.

Pierre, S. D., Dec. 1.—United States Senator Miles Poindexter today charged the republican leaders of South Dakota were assembling to conduct their state convention tomorrow under gag law tactics which would prevent him from obtaining a fair hearing. He arranged to address a public meeting at a local theater late today.

The Constitution of the United States requires that a census of the United States be taken every ten years. It is by this means that the apportionment of members of the house of representatives is made as to states.

The bureau of the census is a part of the Department of Commerce. It was established as a permanent bureau in 1902. Prior to that time the census work was done by a temporary organization known as the census office.

A census of the county's manufactures was made for the first time in 1910. Under the present law a manufacture census is to be taken in connection with the Fourteenth Decennial Census and every two years thereafter.

The new hall of the London County Council is being lined with marble from the quarries of Mt. Pentelikon, Greece, which supplied material for the Acropolis.

The Treaty of Peace, including the League of Nations, has been approved by both chambers of the British Parliament and by Canada, New Zealand, the Union of South Africa, and Australia.

SUGAR SITUATION IS SERIOUS, WITH NO RELIEF IN SIGHT

The sugar situation in Ardmore continues to be rather serious and housewives are busy rearranging menus calling for less sugar.

That they have just cause to be alarmed over the sugar shortage is evidenced by the number of retail grocers who do not have sugar, many of whom state that they expected to receive sugar late this afternoon from their wholesalers.

Upon inquiry from three wholesale grocers, The Pennington Grocery, Tyler & Simpson, and the Purcell Wholesale Grocery, only the latter has sugar on hand. M. L. Cochran, manager of the Purcell Grocery, stated that the amount of sugar he had is less than a car load; that he is dividing it between all of his customers as evenly as possible.

Mr. Cochran stated that it was almost impossible to secure cane sugar.

No definite information can be secured from the wholesalers as to when they could secure sugar. "We may get a car today, or perhaps not for two or three days," was the answer to the inquiry. "The situation is really serious, and all we can say is that we have our orders placed and will do our best."

Retailers are doing everything possible so that their customers may receive equal amounts of sugar in many instances the amount being limited to 25 cents worth to a customer.

Among several groceryman called this morning the following information was given:

H. L. Crockett, 15 cents per pound, 25 cents worth to each customer, (best cane sugar).

W. A. Colley, no sugar.

Crescent, no sugar this morning, Saturday prices, best sugar 12 1/2 cents, cane at 13 cents.

W. J. Lane, 16 cents per pound, 25 cents worth to customer.

M. T. Pelletier, 15 cents per pound, 25 cents to customer.

Hunt & Sparks, no sugar, Saturday prices 16 cents per pound, 25 cents to customer.

Whitehurst, no sugar.

Iselovitz, no sugar.

Stewart, 12 1/2 cents per pound, 50 cents worth to customers.

J. S. McCharen, no sugar.

Walter McCharen, 5 lbs. for \$1, to each customer.

S. E. Priddy, 15 cents per pound, 25 cents to customer.

J. D. Lane, 15 cents per pound, 25 cents to customer.

Stanley & Calloway, just 25 cents worth left, two pounds.

Abbott, no sugar.

Brooks, 16 3/4 cents per pound, 25 cents to customer.

Moss & Ivett, 1 3/4 pound, for 25 cents, to one customer.

Lykins, no sugar.

Poultry Show

Everything is in readiness for the opening of the first annual Carter County Poultry Show, at Convention Hall, beginning December 2, and the officers are well pleased with prospects for the largest event of the kind ever held in this section of the state.

All entries may rest assured that everything will be provided for their convenience.

MAXWELL SHOW CAR ARRIVES

The Maxwell special built car, of white enamel with silver trimmings, has arrived in charge of H. R. Halbedel, direct from the factory and is now on exhibition at the sales room of the Slaughter Motor Company.

Mr. Halbedel will give special lectures on automobile mechanism, using this car to demonstrate with and will give some mechanical information on automobile mechanism that will be worth the time of every one interested in automobiles.

The Slaughter Motor Company has sent out invitations to all its dealers

and these men will be here during the week to form a more perfect acquaintance with the car they sell.

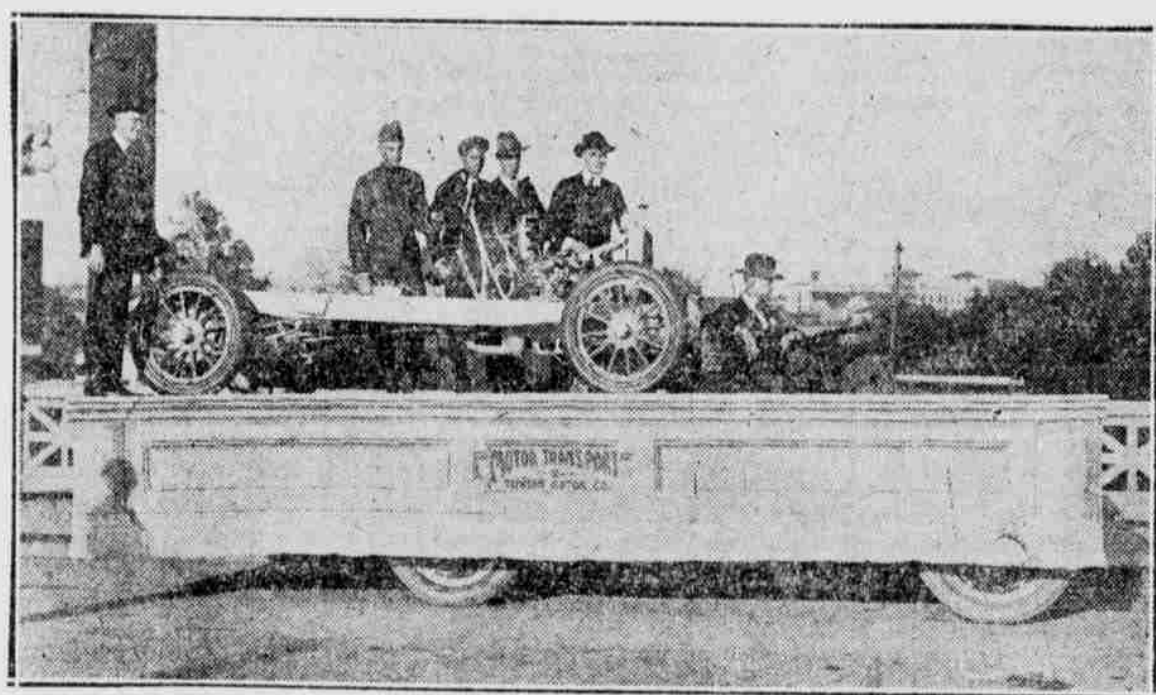

A knowledge of the mechanism of one car is a knowledge that can be applied to all cars.

An invitation is extended to all persons to see this car during the week.

Textile Strike Postponed

New Bedford, Mass., Dec. 1.—Union textile operatives here who threatened last week to strike today to force wage demands, remained at work pending further negotiations with the cotton manufacturers.

The Motor Car Forced To Give Up Its Secrets

Women who drive a car and who would like to know something of the gears and how the power is applied to the rear axle, can get all this information at a glance any day this week at our sales room. We have received by express a Maxwell chassis which is so constructed that it shows every gear and every working part of the car and this chassis is in constant action and it is worth anyone's time to come to see it. We have brought to your door one of the most interesting features of the great Kansas City and Chicago Automobile Shows and have placed it before you at our expense.

No matter what car you drive, its mechanism is on the same principle of the Maxwell, and when you have seen this car you have seen your own and you will know more of the automobile than you have ever known before. Mr. H. R. Halbedel is here from the Maxwell-Chalmers factory at Detroit. He will spend the entire week here and he is at your service any hour of the day. He will take pleasure in going into detail and will show you every part of the car.

Automobile owners and drivers and dealers and salesmen are extended a cordial invitation to visit our sales room and see this chassis and see it in operation.

A special invitation is extended to women who motor and women who want to become acquainted with motor machinery to visit this miniature automobile show.
